Volaro
L I F T S **SERIES 5**

VL210

Simply lending a hand...

Battery-powered Volaro full-body lifts allow safe, smooth transfer from bed to wheelchair, or wheelchair to commode.

- Lift range: from floor to high beds or tubs
- Lightweight, easy to maneuver
- Durable construction
- Wide range of slings and accessories available
- 5-year warranty

Electric ball screw actuator is smooth and quiet; provides emergency "down" capability.

Safety padding protects the resident, prevents skin tears. Easy-clean vinyl.

Removable battery pack assures that lift is always charged. Long life/heavy-duty.

Battery indicator signals visually when battery is low.

Emergency Stop safety feature instantly halts up or down motion by simply removing the battery.

Remote control allows easy lift operation during transfer.

Adjustable base permits easy movement around objects.

Safety retention clips provide extra safety even if slack occurs.

Sling harness is safe and easily cleaned.

Compact base allows easy mobility even in small bathrooms.
